Roger,

Just in case you have not seen it.

Mingda

My apologies for not getting this out last night.

As you are aware, The Lancet has today published an article on PM activities related to the IARC ETS study. Here is the PM statement used yesterday with selected media and the Lancet article.

lancet_response.doc

We have heard that late tonight, Lancet (UK Medical Journal) will be publicizing a report entitled "Tobacco industry efforts subverting International Agency for Research on Cancer's second-hand smoke study". PM is responding to any reporter enquiries with the above attached statement. If there are requests for further comment, David Greenberg is available to provide interviews. An embargoed copy of the reporter is available in the below attached file. Should USA or Corporate

PM3006532387

have calls, you may respond by faxing the statement -- and providing me with details, so I can follow up should there be need for further comment on the issue by David. BC
